When and How R-Ladies was born?

A photograph of the Golden Gate Bridge in San Francisco, California. The bridge's iconic red towers and suspension cables are visible against a backdrop of a blue sky with scattered white clouds. In the foreground, the calm, greenish-blue water of the San Francisco Bay is visible, with hills and landmasses in the background.

R-Ladies long term support

R Consortium welcomes R-Ladies as a top level project

By John Mertic | March 27, 2018 | Announcement, Blog, News, R Consortium Project

In 2016, R-Ladies started their effort for a global expansion, with the [help from the R Consortium](#). Back then there were only 4 active chapters (San Francisco, Taipei, Twin Cities and London) and the goal was to expand to 5-10 cities within the next year. The enthusiasm within the R community for local R-Ladies chapters far exceeded any possible expectations! As of March 2018, the organization has over 90 chapters and almost 19,000 members.

There are [R-Ladies chapters in 45 countries around the globe](#), with many chapters hosting monthly events.

With this fast growth, it became apparent to the R Consortium ISC that this project needs long term investment for success. The diversified voice of R-Ladies, speaking not only as a group representing gender minorities in tech but also a group attracting new R users, aligned with the R Consortium's defined [Code of Conduct](#) and its desires

for building a more diverse and inclusive R community.

R Consortium ISC is pleased to announce and welcome [R-Ladies as a top level project](#). R-Ladies has shown a big commitment within the R community and [becoming a top level project](#) will provide them a longer term budget cycle (3 years instead of 1 year) to support their community. R-Ladies will also have a voting seat on the ISC (represented by [Gabriela de Queiroz](#)).

We invite all in the R community to congratulate R-Ladies on this milestone, and look forward to ensuring they have the infrastructure and funding to bring more diversity to the R community.
